Mr. Matthew Ackiewicz
Superintendent of School
mackiewicz@cccharters.org

July 2026

Dear Parents/Guardians:

In accordance with federal regulations of the Asbestos Hazard Emergency Response Act (AHERA), school districts are mandated to inform you annually of our compliance with their regulations.

Bridgeton Public Charter School has conducted AHERA inspections and has developed the required Management Plans for Asbestos Containing Materials (ACBM). As required by AHERA, since July 1989, a three-year re-inspection was conducted in May 2024 by Epic Environmental, LLC. The school buildings were inspected, and a letter of assurance was sent to the New Jersey Department of Health confirming our compliance with AHERA regulations. This memorandum shall serve as an annual notification to interested parties regarding asbestos management activities performed by and for Bridgeton Public Charter School, as required by 40 CFR Part 763.93 (G) (\$) (Asbestos Hazard Emergency Response Act).

Copies of the Asbestos Management Plan are available to the public for viewing during normal school year business hours (9:00 am to 3:00 pm, Monday through Friday) at Bridgeton Public Charter School.

Facility Director, Mr. Joseph Keyek has been appointed Designated Person to manage the Bridgeton Public Charter School's asbestos plan. Two-hour awareness training for custodial staff and other interested persons shall be performed as needed, as well as when new custodial staff are hired.

Questions regarding this notification or any activities related to the asbestos-containing materials may be directed to the administrative office at (609) 691-1611.

Sincerely,

Mr. Matthew Ackiewicz

Superintendent of Schools
